

DAY 12 • 2026-09-22 • PROMPT

SHOW ME THE VISUAL

Side-by-side options you can look at and click.

HOW TO USE IT

Use it when a choice is easier to see than to read. Replace [THING] with what you are building.

PROMPT 01

I'm choosing between [LAYOUTS, LOOKS OR WORDINGS] for [THING]. Show me the options side by side as a visual, with each option drawn in place the way it will really appear. Use the same click-to-pick format: recommended, option 2, option 3, skip, my own, and a copy-answers button. Under each option, tell me what it costs me.
